WILLIAM STEWART

Cincinnati, OH • wstewart.w06@gmail.com

PROFESSIONAL SUMMARY

Cybersecurity student at the University of Cincinnati with a 3.5 GPA and hands-on IT internship experience in aerospace manufacturing. Experience supporting vulnerability management, endpoint administration, Active Directory, technical support, software deployment, and network troubleshooting. Curious, driven, and committed to building practical cybersecurity and information technology expertise.

PROFESSIONAL EXPERIENCE

Information Technology Intern May 2026 – Aug 2026
Click Bond | Carson City, NV

- Partnered with the Information Security team to identify and patch software vulnerabilities using Tenable Nessus and CrowdStrike Falcon.
- Monitored software and hardware support tickets through Ivanti and provided remote software assistance using ManageEngine Endpoint Central.
- Managed user groups and permissions in Active Directory and installed software and hardware across company computers.
- Collaborated with Apps & Data on software rationalization requests and with Networking to troubleshoot switches, access points, Ethernet ports, and other campus network issues.
- Applied AI tools to streamline technical documentation, ticket triage, and troubleshooting research, improving workflow efficiency across routine support tasks.

Mover Jun 2024 – May 2026
Bridges Family Movers | Sharonville, OH

Restaurant Crew Member Apr 2023 – May 2024
Raising Cane's | Fairfield, OH

- Delivered customer service in a fast-paced environment while greeting customers, taking orders, preparing and cooking food, cleaning work areas, and handling cash.
- Demonstrated time management, teamwork, and accuracy while working under pressure.

EDUCATION

Bachelor's Degree in Cybersecurity Aug 2025 – Present
University of Cincinnati, Main Campus | Cincinnati, OH

High School Diploma Aug 2020 – May 2024
Fairfield High School | Fairfield, OH

RELEVANT COURSEWORK

Computer Networking | Network Infrastructure Management | Database Management 1 & 2 | System Administration | Introduction to Information Security | Web Development | Fundamentals of IT | Implications of IT | Fundamentals of Digital Media | Interpersonal Communications

TECHNICAL SKILLS

Security Tenable Nessus, CrowdStrike Falcon, vulnerability detection and patching, information security compliance, VPN

Systems & Support Active Directory, Microsoft 365, Windows, Windows Server, macOS, Linux, desktop support, remote support, hardware diagnostics, software installation

Networking LAN, IP networking, Wi-Fi (802.11), network equipment troubleshooting, cabling, wireless configuration
